Field Service Express

Need to get products or spares to someone fast?

No problem. At TNT we can store your products and parts locally nationwide for rapid call-off, 24 hours a day.

With round-the-clock parts availability, plus fast pick, pack and despatch services from over 40 locations across the UK, we can ensure you always keep your promises to customers.

What's more, we offer innovative online management services giving you instant access to stock information to make ordering easy. Simply make a stock request online and within hours it will be delivered.

Rapid response 24/7

Efficient warehousing

There's a simple way of reducing your inventory costs and shortening delivery timescales. We offer secure storage at strategically located warehouses across the UK for fast retrieval whenever you need.

Forward stock locations

With TNT you can avoid costly interruptions to productivity thanks to our extensive network of forward stock locations across the UK. It means we have a team close-by who can pick, pack and deliver parts to your field engineers wherever they are, in the shortest possible time.

Online management

Here at TNT we give you greater control over your inventory. You can access our warehouse management system online at any time either to place an order, get up-to-the-minute stock information or track product movements.

Keeping our promises

You know you can trust TNT to provide a quality service. We devise best practice solutions to meet your objectives and constantly monitor our performance against service level agreements. That way we can make sure our promises to you are always met.

How you benefit

- Instant access to additional resources – we already have the locations, skilled operators and systems
- Easy to order – online management services that offer total control
- Reduced inventory costs through efficient warehousing
- Rapid response 24/7/365 for total flexibility
- Reliability of TNT's extensive and well established network.
